Lab01: Pressure Measurements of Inviscid Flow over Cylinder

Due on February 13th, 2026 at 11:59 AM

Dr. Silbaugh, 02:00 PM

Mikołaj Kostrzewa & Vai Srivastava

Experiment Performed: February 6th, 2026

Report Submitted: February 9th, 2026

This is a brief letter accompanying a report indicating that the report is enclosed or attached. In some cases, the letter is put at the beginning of the report following the title page rather than on top of it. It simply is up to your preference whether to make the letter a part of your report by putting it behind the title page or to separate it from the main report by placing it on top of the title page. While it serves not much purpose other than officially turning the report over to the reader, it is a professional and courteous way to present the report.

In general, the letter should be addressed to the person or organization that requested the information contained in your report. For the purpose of this course, however, your letter can be addressed to the laboratory professor whose experiment you just have completed.

Contents

1	Abstract	1
2	Nomenclature	1
3	Introduction	1
4	Experimental Apparatus and Procedures	1
4.1	Experimental Apparatus	1
4.2	Operating Technique	1
5	Results	1
5.1	Operating Conditions	1
5.2	Measurements	1
5.3	Quantities of Interest	1
6	Analysis and Discussion	1
6.1	Data Conversion	1
6.2	Interpretation	1
7	Summary and Conclusions	1
8	References	1
9	Appendices	1
9.1	Data	1
9.2	Code	2
